**INFERENCE MINI-LESSON  
LESSON PLAN**

<b>AIM:</b>	Students will quickly investigate informational texts.
<b>OBJECTIVE:</b>	Students will: <ul style="list-style-type: none"> <li>• Make observations</li> <li>• Make inferences</li> <li>• Cite evidence to support inferences</li> <li>• Gain knowledge of historic event with supplemental content</li> </ul>
<b>TIME:</b>	10 – 20 minutes <ul style="list-style-type: none"> <li>• Activity can be truncated or expanded to fit instructional needs</li> </ul>
<b>MATERIALS:</b> <i>(Provided by Brooklyn Connections Educator)</i>	<ul style="list-style-type: none"> <li>• Informational text: document or photograph</li> <li>• Mini-Lesson Handout</li> <li>• SmartBoard or Projector to display image</li> </ul>
<b>PROCEDURE:</b>	<ol style="list-style-type: none"> <li>1. Define the difference between observations and inferences               <ol style="list-style-type: none"> <li>a. <i>Observation</i>: statement or comment based on something one has seen, heard, or noticed – no observation is too small</li> <li>b. <i>Inference</i>: a conclusion reached on the basis of evidence and reasoning</li> <li>c. Students will understand that observations are what they see, not what they think they see. Make sure to break down unintentional inferences:                   <ol style="list-style-type: none"> <li>i. Student: “I see a woman who is cold.” Educator: “Break that down – WHY do you think she is cold.” Student: “She is wearing a coat.” Educator: “You are observing a woman wearing a coat.”</li> </ol> </li> </ol> </li> <li>2. Distribute informational text</li> <li>3. Students will analyze informational text               <ol style="list-style-type: none"> <li>a. Students will make 5 observations</li> <li>b. Students will turn-and-talk, checking with their neighbor to make sure they’ve made observations and not inferences</li> </ol> </li> <li>4. Students will then make inferences by answering one of the following questions:               <ol style="list-style-type: none"> <li>a. If the text is a photo: What is happening in this photograph?</li> <li>b. If the text is word-centric or a piece of ephemera: What was/is this document? What is this document about?</li> <li>c. Students <b>must</b> support their inference with evidence: Why do you think that?</li> </ol> </li> </ol>

**INFERENCE MINI-LESSON  
LESSON PLAN**

	<ol style="list-style-type: none"> <li>5. Students will share out their inferences             <ol style="list-style-type: none"> <li>a. Students with opposing inferences will share out their findings and discuss</li> </ol> </li> <li>6. Instructor will give context and supply students with the correct answer</li> <li>7. Students will locate evidence to support the correct answer</li> <li>8. Students will end with a question to prompt further research.</li> </ol>
<b>ASSESSMENT:</b>	<ul style="list-style-type: none"> <li>• Educator can collect student work to check for completion and comprehension</li> <li>• Allow students to assess each other’s work during turn-and-talk segments</li> </ul>
<b>DIFFERENTIATION:</b>	<ul style="list-style-type: none"> <li>• For lower level students allow more time to observe and infer</li> <li>• For higher level students require more observations and/or more inferences</li> <li>• Use activity multiple times during unit             <ul style="list-style-type: none"> <li>○ Do activity, stopping at step #5.</li> <li>○ Proceed with lesson that explores content surrounding text</li> <li>○ Ask students to infer again after they’ve gained content knowledge                 <ul style="list-style-type: none"> <li>▪ How do their inferences change?</li> <li>▪ Do they observe things they did not observe before?</li> </ul> </li> <li>○ Educator will share out context</li> </ul> </li> </ul>
